

40414 OFFICE SHREDDER

DAHLE PROFESSIONAL SERIES

40414

- 10 1/4" Feed Opening
- 20/24 Sheet Capacity
- 1/8" x 1 1/16" Shred Size
- Security Level P4 (old level 3)
- SmartPower Management
- Made in Germany

With the widespread use of network printers and fax machines, confidential business information is constantly being printed throughout the workday. It's important to have a powerful shredder located nearby to easily dispose of this information. This shredder is designed to accommodate the needs of most busy offices. It's a perfect shredder for destroying marketing plans, health records, and any other confidential information that should not be seen by others.

The Dahle 40414 offers a 10 1/4" feed opening and can shred up to 20/24 sheets of paper at a time. It features full electronic capabilities including such safety features as Automatic Shutoff when the cabinet door is open, and Auto Reverse to prevent an overfeed. Automatic On/Off and Bag Full Auto Off are features that offer both convenience and satisfaction in knowing you will be notified when it's time to change the bag.

Each cutting cylinder is encased in an all-steel frame and sits on rubber shock mounts. It's this design that reduces vibration through the cabinet

and provides whisper quiet operation. With its ease of use and state-of-the-art capabilities, this shredder will soon become a favorite meeting place and quite possibly the water cooler of the future.

Those interested in conserving energy as well as reducing electrical costs will enjoy the revolutionary SmartPower Energy Management System. This multi-stage system reduces power consumption after ten minutes of sitting idle (sleep mode), and completely powers down after an additional 20 minutes of inactivity.

Dahle's shredders are made in Germany using the latest technology and finest materials. The end result is a quality machine and peace of mind in knowing your Dahle shredder will provide many years of trouble free operation.

Dahle Office shredder with built in user-friendly opening for CD/DVD destruction.

The easy-to-use command dial controls all of the shredder's functions such as power up, reverse, and continuous run.
